(bronze red to rusty red in fall)

JAPANESE LILAC TREE (M)

Ivory Silk
Summer Snow
(Creamy-white flowering clusters)

(S) Small Growing Tree
(M) Medium Growing Tree
(L) Large Growing Tree

The Tree Commission encourages home-owners to plant new trees in the plot between the sidewalk and curb after filling out a permit and getting approval by the tree commission. The Borough of Hanover has a program for providing and planting a limited number of street trees each year. However recent budget cuts have restricted the number of trees purchased. If the property owner is willing to purchase a tree, it can be planted by the property owner or by our Public Works Dept. If you are interested, please stop in at the Borough Office and fill out a permit.

***It is the responsibility of the home-owner to water and care for newly planted trees for the first year after planting, whether the Borough or the home-owner plants the trees.
